SANTA FE

Introducing the new SANTA FE

The new 2021 SANTA FE is the perfect car for bringing families together, creating memories that last longer than the longest of road trips. Pack the car, gather the family, and head off on an adventure, leaving the distractions of the modern world behind.

Electronic submission button (SBW)

Shift-By-Wire buttons radiate high-tech appeal but also offer improved operational convenience and include a security feature that prevents accidental shifting.

Smart technology

The new Santa FE is installed with a 8" infotainment system to entertain and inform you from the start to the end of every journey. It also comes with wireless charging.

Rear view monitor

A camera system installed in the rear of the vehicle offers convenience when rear view mirror visibility is obscured by passengers or luggage in the backseat. The rear view monitor offers a permanent look at the rear of the vehicle.

Led headlights

The new SANTA FE has full LED headlights which offer enhanced visibility.

Panoramic sunroof*

The new SANTA FE comes with an extensive sunroof offering you and your family breath taking views of the skies, night or day.

Drive mode & multi terrain control

Simply turn the knob to select the mode that suits you best: Comfort for everyday driving, Eco for optimal fuel efficiency, Sport for quicker acceleration, or Smart which automatically adjusts gear shift intervals based on recent driving patterns. When the going gets tough, snow, mud and sand modes assure optimal tire traction over different types of rough terrain.

Blind spot detection

The SANTA FE's dedication to safety is further enhanced with Blind Spot Detection (BSD). This system displays a visual warning in the side mirrors when another vehicle approaches the rear blind spot, while Lane Change Assist increases the effectiveness of the BSD by giving an audible warning when the indicator is used. The rear cross-traffic alert adds further value, because it warns drivers of approaching cross-traffic.

Safety

The safety of your family is top priority for you, and for us. The new SANTA FE is equipped with safety features such as Safe Exit Assist, which keeps the child lock active when it senses a vehicle approaching from the rear.

Another feature is ISOFIX, a safe system for attaching child safety seats by plugging the seats into the fitting points found inside the vehicle, ensuring your child's safety. Lastly, SANTA FE is equipped with an ultrasonic sensor placed on the headliner that detects any motion of passengers sitting in the second and third row of seats. The Rear Occupant Alert* means that you can't leave your car without being instantly alerted that a child is sitting in the back seat.
